It might not seem like very much, but just a 5% increase in recycling will make a huge difference on Ohio State’s campus. You (yes, you) can join the effort by following these simple tips:

1. Participate in this month’s Recyclemania competition.
2. Use All-in-One bins to recycle paper, plastic, metal, & glass.
3. Use reusable mugs and bags when visiting our dining facilities.
4. Don’t recycle paper covered in food grease. Use a trash bin!
5. Take steps to get your office Green Buckeye certified!

It’s a win-win situation: Ohio State wants to increase recycling by 5% this month.
